

# PVC EDGE SOLUTIONS

**3mm PVC Edge** applied with state-of-the-art banding equipment

**HPP thermally-fused surface** with a phenolic backer for balanced construction

**Square or 2" radius corners** for flexible design configurations

PVC edged tables are an industry standard. Using state-of-the-art banding equipment and quality materials, Edgemold offers a complete line of tables with the highest quality impact-resistant 3mm PVC edges. Our PVC Edge Table Tops feature a durable laminate surface with a phenolic backer for balanced construction.

## PVC Edge Advantages

- Industry-standard design
- Applied with state-of-the-art banding equipment
- Cost effective yet durable
- Clean 3mm PVC edge

## Material Components

- 3mm PVC edge banding
- HPP thermally fused surface
- 1.25" overall thickness
- 45 lb particle-board core
- Square or 2" radius corners

## Progressive Color Selection

- Multiple edge color options
- Diverse solid, woodgrain, and abstract options
- Custom-printed graphics

## Applications:

- Hotels
- Restaurants
- Meeting and Training Rooms
- Cafeterias
- Long-Term Care Dining
- Food Courts
- Airports

## Environmental Commitment:

- Made in the USA from USA-sourced materials
- CARB I and II compliant
